REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, April 30.—The day on the 6tock market started off with another attempt to rush up prices by specu-lative manipulation with the purpose of attempt to rush up prices by speculative manipulation with the purpose of attracting an outside following, but the short interest had been so far eliminated by the events of the latter part of last week that there was not sufficiently prices. Neither was there any awakened interest developed through the commission houses. The market therefore fell back and became dull and heavy, but without positive weakness until some of the late developments, when the bears showed renewed vigor and sold prices to the lowest of the day. The violent break in Sugar was the principal element in the decline. That stock sold up to 121½ in the early dealings and recovered to that figure after a reaction and then fell away with occasional spasmodic railies to 111¾, closing only slightly above that. The news bearing on the stock consisted of a story from Boston giving elaborate details of alleged terms of settlement of the trade war and the expressed opinion of a prominent speculator, just before sailing for Europe, that the war was settled. Several of the principals in the trade-conflicts denied the allegations during the day. The threatened strike on the New York Central caused a fall of 2½ points in that stock and had a sympathetic effect elsewhere in the list. Missouri Pacilic was pushed up to sixty on rumors that a dividend would be declared at to-day's meeting of directors, and that John D. Rockefeller would be admitted to the directory. Both rumors falled to be confirmed by the event, and the stock fell back, but saved a small net gain.

The steel industrials, after some show of weakness, also became firm and closed generally with a small net gain.

the stock fell back, but saved a small net gain.

The steel industrials, after some show of weakness, also became firm and closed generally with a small net gain. The only developments bearing on the group were rumors regarding the threatened legal process against officials of the Steel and Wire company. United States Leather made a considerable show of strength. Otherwise the market generally yielded to the reactionary tendency and closed very near the lowest, and easy in tone. There were no developments of importance in the money or exchange market, though both were scanned with eager interest. Discounts in London and sterling exchange were slightly easier here, but London has to prepare for a 10 per cent, installment of the Government loan, which will be taken up this week. The tightening of the London money market and the demand for exchange in New York to pay the installment of American subscription will both tend toward gold exports. The money market here continues easy and shows no sign of hardening, notwithstanding the diminished supply of eash for the market on sub-Treasury operations. It is worthy of remark in this connection that Saturday's Treasury statement at Washington showed an excess of receipts over expenditures for the day of \$1,321,681, thus materially raising the figures of the month's surplus.

Rairoad bonds were weak in sympathy with stock, but the dealings were rather light. Total sales, par value, \$1,470,000.

U. S. 2's advanced ¼ and new 4's declined ¼c, in the bid price.

To-day's stock sales were \$20,800 shares.

New York, April 30,—Standard oil, 5.30 \$65.35.

The Cotton Markets.

The Cotton Markets.

NEW YORK COTTON MARKET.

New York, April 30.—The cotton market was active and generally firmer today, opening steady at unchanged prices to an advance of seven points with further business improving the general level to 50010 points advance. The rise was largely due to covering owing to uncasiness following the crop news from central Texas. The character of this news was the most gloomy received. From the cotton belt at large, however , crop damage accounts were more favorable and pointed to unusual activity on the part of the farmers to increse their acreage. This view was confirmed by active selling orders from the South directed to the new crop positions, while Wall street parties sold the summer positions on the movement. Prices yielded partially under this pressure, but the market was at ne time weak, selling being chacked by predicted floods in Brazos, Colorado and Trinity valleys, and also by private cables stating that the feeling in regard to the cotton shows more favorable signs in the English cotton trade with the strongest house in Liverpool taking up all tenders. There was a large business here but within the range of 10 points, liquidation proceeding on the give and take basis between longs and shorts curtailing rather than increasing the general interest. The market closed quiet and steady at net unchanged prices to 6 points advance.

New York, April 30.—Spot cotton closed quiet; middling uplands, 9 13-16; middling gulf, 10 1-16. Sales, 400 bales.
